

# RELEASE NOTES

## Apptimized v5.6

Released July 4, 2017

### Purpose

The purpose of this document is to detail the enhancements now available in v5.6 of the Apptimized automated application packaging toolset.

### Introduction

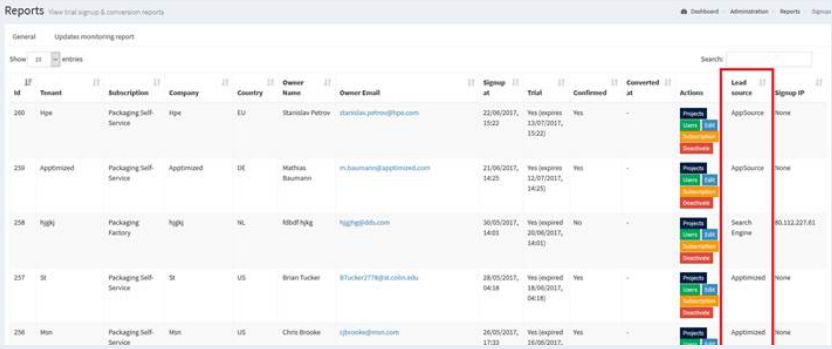

Apptimized is an automated application packaging toolset, providing end-users with a web-based packaging capability via an online portal.

The toolset has been developed to reduce the complexity and time taken to create application packages in either MSI or App-V formats for deployment to MS Windows Desktop and Terminal Server platforms.

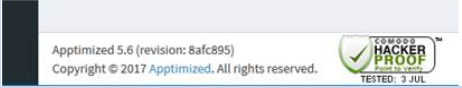

Apptimized is a proprietary technology supported by a team of in-house developers.

Apptimized can be accessed via <https://www.apptimized.com>

### Updates (Page 1/2)

Update Ref	Feature / Bug	Update
